

### Notes

- The survey grid is a local grid, coincident with Ordnance Survey National Grid at 257N.
- Surveyed boundary features are not necessarily legal boundaries.
- Dimensions should not be scaled. All dimensions should be checked on site before any fabrication / construction.
- Copyright of all data produced by Technics Group shall remain with Technics Group unless otherwise specifically agreed.
- Information provided should not be altered or modified in any way. It should not be used for any purpose other than for which it was intended and should not be issued to other parties without prior agreement of Technics Group.
- Technics Group cannot accept responsibility for any damage to computer systems which may result from viruses which may be contained in the data provided.
- If the AutoCAD drawing is being read by any system other than AutoCAD it should be checked against a hard copy. Technics Group cannot accept liability for omissions.
- Structural Floor and Ceiling Levels (indicated) have been derived by measuring through floor and ceiling voids and therefore maybe subject to limited accuracy.

### Level Datum

ALL LEVELS ARE ORTHOMETRIC HEIGHTS RELATED TO OSBM02 GPS DATUM, COMPUTED USING LEICA SMARTNET RTN NETWORK.
